Martin Barroso

Fullstack Software Developer

Proactive Full-Stack Developer with 4 years of experience in Angular and the .NET ecosystem. I thrive in team environments and I'm driven to build practical, high-quality applications that improve efficiency and drive business value. Eager to leverage my skills and quickly learn new technologies.

Experience

02/2022 - Present

Universal Robots - Odense, Denmark

Software Developer

- Developed and maintained web applications with a strong focus on Angular and .NET, contributing to a server-side rendered (SSR) website and an internal component library documented with Storybook.
- Managed and integrated Azure services, including Active Directory B2C, Functions, Cosmos DB, Blob storage and Table Storage.
- Managed Salesforce Commerce Cloud integrations, data models, and platform configurations.
- Utilized Azure DevOps for project management, CI/CD pipelines, and source control.
- Ensured application quality and reliability by writing and maintaining end-to-end and component tests using Cypress, and unit and integrations tests with XUnit.
- Worked closely with UX/UI designers and product managers using Figma
- Participated in an Agile Scrum environment, contributing to daily stand-ups, sprint planning, and retrospectives.

08/2021 - 12/2021

Slingr - Mendoza, Argentina

Software Developer

Developed and maintained full-stack web solutions for a large enterprise client, ADP, on their Lifion platform.

06/2011 - 12/2021

Picardo Restaurant - Mendoza, Argentina

Founder and Manager

- Managed all aspects of a successful restaurant, including financial operations, human resources, and marketing.
- Led and mentored a small team, overseeing their training and ensuring high standards of service.
- Achieved and maintained a 4.5/5-star rating on Google and TripAdvisor, reflecting a strong focus on customer satisfaction and quality assurance.
